

Gigaset PURE 100 duo

For undisturbed conversations: With the Gigaset PURE 100 duo, you block disturbing calls and enjoy reliable as well as simple telephony.

Highlights

- o Call block key for blocking up to 25 phone numbers
- o Illuminated display
- o Phonebook for up to 50 contacts
- o Function key for quick access to flash, mute, silent or redial function
- o Hearing aid compatible
- o ECO DECT

Call protection with call block key

The Gigaset PURE 100 duo offers a dedicated call block key that allows you to easily place up to 25 phone numbers on a block list to block unwanted calls. Whether it's telemarketing, spam or inappropriate callers, the call block button puts you in control of your calls and protects your privacy.

Backlit display

With the backlit display, you can easily identify phone numbers and names, and read important information such as battery charge indicator, date, time and call duration indicator at a glance. The display is bright enough to be easily read in darker rooms, while the soft illumination is easy on your eyes and enhances the user experience.

Phonebook

The phonebook, with space for up to 50 contacts, is a convenient way to access the phone numbers of your friends, family or business associates. At the same time, storing contacts allows the caller's name to be displayed along with the phone number before the call is answered.
