

HPE SIMPLIVITY 325 GEN10 NODE (R2Z06A)

Hyper Converged

WHAT'S NEW

- Now available with the 2nd Gen AMD EPYC™ processor family.
- Extra small (4.6 TB) and small (7.5 TB) software-optimized HPE SimpliVity 325 Gen10 options.
- HPE InfoSight for HPE SimpliVity enables predictive data analytics and a unified view of HPE SimpliVity assets such as Datastore, VM, Backups, Capacity, and IOPS.
- HPE OmniStack supports up to 48 clusters per federation and VMware ESXi™ 6.5 and

OVERVIEW

Do you need a dense platform with built-in security and flexibility that addresses key applications such as virtualization and hyperconverged storage and compute?

HPE SimpliVity 325 provides HCI choice with our first AMD EPYC™ single CPU processor platform including all-flash storage. Highly dense, the solution is a 1U enclosure that scales in 1U increments and is ideal for remote office or space-constrained locations. Each appliance has one node per 1U chassis and provides customers with the full software capabilities of HPE SimpliVity - guaranteed data efficiency, built-in data protection, and global virtual machine (VM)-

6.7.

- Add clusters of HPE SimpliVity 325 to expand existing federations of HPE SimpliVity 380 and HPE SimpliVity 2600.
- Support for backup to Cloud Bank and HPE Cloud Volumes

centric management and mobility.

Part of the world's most secure industry-standard server portfolio, the HPE ProLiant DL325 Gen10 server [1] along with AMD EPYC processors, bring together the latest innovations in security and performance.

FEATURES

Complete Hyperconvergence in a Fully Integrated System

The HPE SimpliVity 325 combines x86 resources, storage, and storage networking in a single hyper converged system with advanced functionality.

It simplifies management and delivers outstanding cost efficiency and agility.

It provides increased visibility and control with unified management.

It delivers rapid deployment so you can respond to business needs faster.

It unifies VMs and infrastructure tasks to reduce sprawl and overprovisioning.

Peak and Predictable Performance

The all-flash solution provides predictable and linear performance at near wire speeds with reduced latency.

Software-optimized inline deduplication, compression, and optimization helps minimize I/O and network traffic, improving performance while delivering great storage and bandwidth efficiency.

HPE InfoSight for HPE SimpliVity enables predictive data analytics by providing details at the federation, cluster, and host level for historic capacity utilization, trends, resource consumption, and prediction. Alleviates support issues, reduces operational expenses with alerts and case creation.

Enhanced Economics and TCO

Single AMD EPYC processors allow a 50% reduction in socket-based hypervisor licensing costs.

Supports up to 2 TB of memory and up to 32 cores in a 1U hyperconverged appliance.

It drastically reduces the need to purchase multiple discrete components, optimizes storage capacity with guaranteed 10:1 data efficiency [2], and prevents over-provisioning for performance and capacity with on-demand cluster expansion.

Advanced Data Services

The HPE SimpliVity 325 delivers software-optimized, always-on deduplication and compression to significantly reduce capacity utilization.

It provides built-in resiliency, backup, and disaster recovery for data protection.

It offers policy-based, VM-centric management to streamline operations.

HPE SimpliVity RapidDR is a DR orchestration tool for HPE SimpliVity platforms to simplify and accelerate offsite DR for rapid recovery of applications.

Technical specifications**HPE SimpliVity 325 Gen10 Node**

Product Number (SKU)	R2Z06A
Number of processors	2nd Gen AMD EPYC™ Processor for 1 CPU slot
Cores	16 to 64 cores selectable
Ports	Embedded Ethernet 4x1GbE LOM and 10Gb FLOM For optional networking adapters, please see the Quickspecs for further details.
Power	Dual power supplies provide highly available power: HPE 500W FS Plat Hot Plug LH Power Supply Kit; HPE 800W FS Plat Hot Plug Power Supply Kit; HPE 800W FS -48VDC Hot Plug Power Supply Kit; HPE 800W FS Titanium Hot Plug Power Supply Kit; HPE 800W FS Universal Hot Plug Power Supply Kit; HPE 1600W FS Platinum Hot Plug LH Power Supply Kit; NOTE: Two power supplies per node are required for redundancy. 500W and 800W power supplies are only supported with specific configurations.
Form factor	1U
Warranty	Server Warranty includes 3-year parts, 3-year labor, 3-year onsite support with next business day response. 3-year HPE SimpliVity 325 Gen10 solution support (required). NOTE: Warranty for SSDs is subject to maximum usage limitations. Maximum usage limit is the maximum amount of data that can be written to the drive. Drives that have reached this limit will not be eligible for replacement.

Most, if not all IT organizations are on a digital transformation journey — each at a different stage. With over 11,000 IT projects conducted and 1.4 million customer interactions each year, [HPE Pointnext Services](#)' 15,000+ experts and its vast ecosystem of solution partners and channel partners are uniquely able to help you at every stage of your digital transformation. We bring together technology and expertise to help you drive your business forward and prepare for whatever is next.

Advisory and Professional Services help you accelerate your digital transformation. [Operational Services](#) help you remove complexity and respond rapidly to business demands.

Operational Services from HPE Pointnext Services

[HPE Pointnext Tech Care](#) provides fast access to product-specific experts, an AI-driven digital experience, and general technical guidance to help enable constant innovation. We have reimagined IT support from the ground up to deliver faster answers and greater value. By continuously searching for better ways to do things—as opposed to just fixing things that break—HPE Pointnext Tech Care helps you focus on achieving your business goals.

- **[HPE Datacenter Care](#)** helps modernize and simplify IT operations. Partner with an assigned account team, access technical expertise, an enhanced call experience gives you priority access, choose hardware and software support, implement proactive monitoring to help stay ahead of issues, and access HPE IT best practices and IP.
- **[HPE Proactive Care](#)** offers an enhanced call experience and helps reduce problems with personalized proactive reports and advice. This also includes collaborative software support for Independent Software Vendors (ISVs), (Red Hat, VMWare, Microsoft, etc.). [Read more](#)
- **[HPE Foundation Care](#)** helps when there is a problem and has a choice of response levels. Collaborative software support is included and provides troubleshooting help for ISVs running on your server. [Read more](#).
