

HPE SYNERGY 3830C 16GB FIBRE CHANNEL HOST BUS ADAPTER (777452-B21)

Host Adapters

OVERVIEW

What if you could increase I/O performance and simplify the connection between Synergy Compute Modules and complex storage environments?

Designed for the HPE Synergy composable fabric, HPE Synergy 3830C 16Gb Fibre Channel Host Bus Adapter connects Synergy compute resource pools to SANs over 16 Gb native Fibre Channel (FC) fabrics. It provides high-performance

connectivity to HPE Synergy Virtual Connect FC Modules and Brocade® FC Switch Modules. The Synergy 3830C supports advanced virtualization, security, dual-port isolation, dynamic power management and low CPU utilization features. Doubling the I/O performance of 8 Gb FC HBAs, the Synergy 3830C is ideal for FC storage intense workloads.

Provisioning and updating Synergy 3830C are easy, reliable and fast using HPE Synergy software-defined, template-driven, frictionless operation. The HPE Synergy Composer automatically coordinates proper firmware and driver including staging updates to execute and avoid workload disruption.

FEATURES

Run Anything

The HPE Synergy 3830C 16Gb Fibre Channel Host Bus Adapter provides flexible connectivity to HPE Synergy Virtual Connect FC Modules and Brocade FC Switch Modules.

Optimized for virtualization to allow more applications and more virtual machines to run on a single Synergy Compute Module.

Supports advanced features like QoS for Microsoft® Hyper-V vFC function to meet a variety of service level requirements.

Move Faster

The HPE Synergy 3830C 16Gb Fibre Channel Host Bus Adapter provides greater performance with the capability to deliver twice the throughput of 8 Gb/s FC HBAs.

Provides close to 1.2 million IOPs reducing latency in storage dependent applications and virtualized environments.

Delivers higher, more consistent performance with full port isolation and independent processor, memory and drivers for each port.

Work Efficiently

The HPE Synergy 3830C 16Gb Fibre Channel Host Bus Adapter is designed for environments with greater virtual machine density and bandwidth requirements.

Reduces hardware needed to connect servers to the network compared to using 8 Gb Fibre Channel adapters.

Provisions and updates all adapters quickly and consistently using the HPE Synergy template-driven server profiles.

Orchestrates reliable adapter firmware updates with an entire HPE Synergy infrastructure from a single tool, HPE Synergy Composer.

Technical specifications

HPE Synergy 3830C 16Gb Fibre Channel Host Bus Adapter

Product Number (SKU)	777452-B21
Product Dimensions (metric)	6.6 x 11.9 x 3.6 cm
Weight	0.14 kg

Most, if not all IT organizations are on a digital transformation journey — each at a different stage. With over 11,000 IT projects conducted and 1.4 million customer interactions each year, [HPE Pointnext Services](#)' 15,000+ experts and its vast ecosystem of solution partners and channel partners are uniquely able to help you at every stage of your digital transformation. We bring together technology and expertise to help you drive your business forward and prepare for whatever is next.

Advisory and Professional Services help you accelerate your digital transformation. [Operational Services](#) help you remove complexity and respond rapidly to business demands.

Operational Services from HPE Pointnext Services

[HPE Pointnext Tech Care](#) provides fast access to product-specific experts, an AI-driven digital experience, and general technical guidance to help enable constant innovation. We have reimagined IT support from the ground up to deliver faster answers and greater value. By continuously searching for better ways to do things—as opposed to just fixing things that break—HPE Pointnext Tech Care helps you focus on achieving your business goals.

- **[HPE Datacenter Care](#)** helps modernize and simplify IT operations. Partner with an assigned account team, access technical expertise, an enhanced call experience gives you priority access, choose hardware and software support, implement proactive monitoring to help stay ahead of issues, and access HPE IT best practices and IP.
- **[HPE Proactive Care](#)** offers an enhanced call experience and helps reduce problems with personalized proactive reports and advice. This also includes collaborative software support for Independent Software Vendors (ISVs), (Red Hat, VMWare, Microsoft, etc.). [Read more](#)
- **[HPE Foundation Care](#)** helps when there is a problem and has a choice of response levels. Collaborative software support is included and provides troubleshooting help for ISVs running on your server. [Read more](#)
