Hewlett Packard Enterprise
HPE IMC USER BEHAVIOR AUDITOR SOFTWARE MODULE WITH 50-USER E-LTU (JG760AAE)

Intelligent Management Software

WHAT'S NEW

- Provides user data that enhances network security.
- Comprehensive log collection from devices creates safer networks.
- Ability to export and audit log files to examine for threats.

OVERVIEW

The HPE IMC User Behavior Auditor (UBA) Software provides network administrators the ability to audit the behavior of internal users to solve security challenges. In conjunction with the HPE IMC Access Manager (UAM) Software, the IMC UBA Software is built to adapt to network environment changes.

Among the features especially helpful for network administrators are comprehensive log collections and audit functions which digest information from HTTP, FTP, and SMTP packets.

FEATURES

Greater Control Over Internal Threats Creates a More Robust Network

The HPE IMC User Behavior Auditor (UBA) Software audits internal devices and users to protect the network from security threats.

IMC UBA Software analyzes user actions to provide data such as websites visited,

applications used, bandwidth consumed on a per device basis.

Analyzes a variety of logs containing information on device vendor, OS, and type, forwarded by devices on the network to better detect device threats.

Handle Uncertainty with Powerful Filtering and Probe Strategies

The HPE IMC User Behavior Auditor (UBA) Software utilizes probes to analyze incompatible network data.

Overcome uncertainty by filtering log packets and matching them against set criteria to determine anomalies to check overall network security.

Technical specifications

HPE IMC User Behavior Auditor Software Module with 50-user E-LTU

Product Number (SKU)	JG760AAE
Differentiator	HPE IMC User Behavior Software Module with 50-user E-LTU
Platform required	HPE Intelligent Management Center Enterprise Software HPE Intelligent Management Center Standard Software
Technical notes	See the HPE IMC Standard or Enterprise Platform data sheet for the required software environment.

Most, if not all IT organizations are on a digital transformation journey — each at a different stage. With over 11,000 IT projects conducted and 1.4 million customer interactions each year, HPE Pointnext Services' 15,000+ experts and its vast ecosystem of solution partners and channel partners are uniquely able to help you at every stage of your digital transformation. We bring together technology and expertise to help you drive your business forward and prepare for whatever is next.

Advisory and Professional Services help you accelerate your digital transformation. Operational Services help you remove complexity and respond rapidly to business demands.

Operational Services from HPE Pointnext Services

HPE Pointnext Tech Care provides fast access to product-specific experts, an AI-driven digital experience, and general technical guidance to help enable constant innovation. We have reimagined IT support from the ground up to deliver faster answers and greater value. By continuously searching for better ways to do things—as opposed to just fixing things that break—HPE Pointnext Tech Care helps you focus on achieving your business goals.
